MEMORANDUM FOR: Chief, RQM/OIS

SUBJECT: International Communism

1. Attached is a staff study which I have prepared as requested by Mr. Bissell to be used as a basis for consideration of whether responsibility for production in this field should be transferred from the State Department to CIA.

2. It is as accurate a statement as I can make without your advice and consultation. I would appreciate your reading this and meeting in my office at 11:00 o'clock on Thursday morning, 2 September 1954, to criticize this draft.
